Micro sim

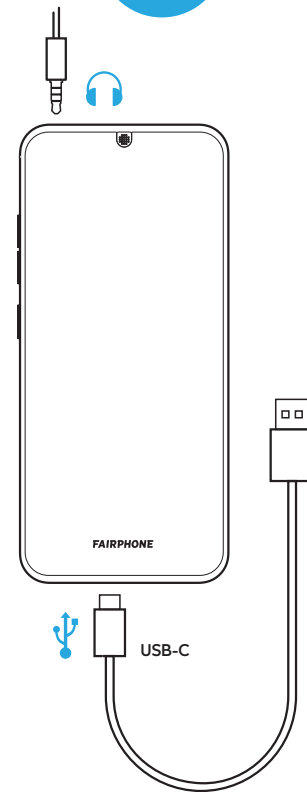

Nano sim

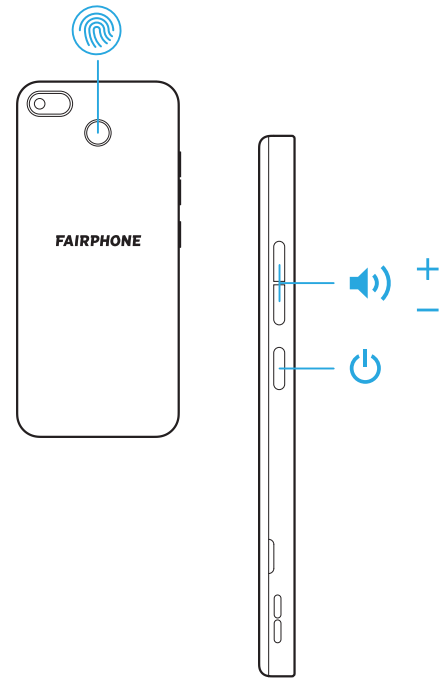

4. Insert nano SIM card by following the arrows. For extra memory, insert micro SD card. To remove, press the edge of the SIM or SD card.

5

5. Place back battery, cover and protective bumper. Fully charge the phone.

6

6. Press and hold the power button to turn on your Fairphone 3.

FAIRPHONE

Change
is in your
hands

To learn more on how we're
changing the industry go to
www.fairphone.com/story

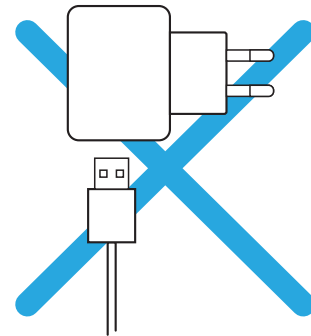

0000-0000-000000-0005

New to
Android?

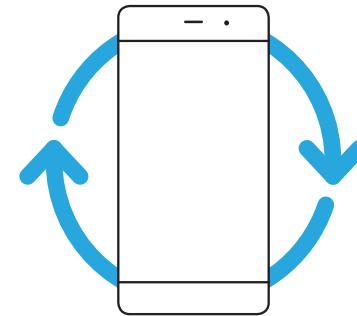

Don't worry, we'll go through it with you,
step by step. Check out
www.fairphone.com/androidsetup

No charger,
less electronic
waste

We don't include a USB-C cable and
power adapter because you probably
already own one. If not, order at
www.fairphone.com/accessories

Care for the
planet

Recycling your old phone is a great
way to show you care about fairer
electronics. Learn how at
www.fairphone.com/recycle

Designed
to open

With the screwdriver in this box, you
can take extra care of your phone.
